- The main method is in the GraphParser class in the files src/main/java as well as all of the needed methods. The test folder is in src/test/java.
- Running maven test will run the 12 different tests needed for the first 2 parts of the project, and then the random search is shows by running the GraphParser program
- Add extra output and expected files are located inside the CSE464-Part1 folder, as well as the rest of the code

The expected outputs as well as given outputs are all in files that are inside the CSE464-Part1 folder, and that is where you can check to verify the code is doing what is expected.

First 5 refactoring
Extract Method:
https://github.com/kljohn71/CSE-464-2023-kljohn71/commit/10d8c0c1da0cc336b31edbf70723d2ab30e9feb9
Rename Variable:
https://github.com/kljohn71/CSE-464-2023-kljohn71/commit/e61800352e0b2a8d55f5cff7f3cced9b88a2e9b8
Extract Variable:
